Hip Hop Vinyl
LP // £ 8.99

Brand new, brought to you courtesy of the good folks at HipHopVinyl in germany, this maxi features 6 vocal tracks and 4 accompanying instrumental versions. Heading up the wax is a new track from CYNE, and its great to have some new music from Speck, Enoch, Cise Star and Akin, first material since the excellent 'Growing' ep rocked our world on CCO earlier this year. 'Catharsis' maintains this crew's very high quota of hits, and augurs extremely well for their full length on CCO now due out sometime next year.

The World After 4/02 comprises Siaz of Cavemen Speak and Marcus of Stacs of Stamina dropping the science over some lovely full guitar parts and off-kilter drums - very tasty stuff. Amateur Dramatics maintain the high standards, Betties Blues again roll on a supreme rhythm - some interesting diggin has gone down here, this time its german language and actually very good. XndI of Offbeaters closes with possibly my fave cut of all, an awesome, slow, grinding beat - rounding out a thoroughly impressive value slice of vinyl. Very limited.
